

Year 10

First recipe is being made in week 3

- You need to have your first recipe handed in this week
- You need to have all ingredients
- No ingredient list means it will not be bought for you

First recipe

- Needs to be made in 2 hours. Take into consideration the equipment you have in the classroom
- Total cost of recipe needs to be under \$10
- Combine existing desserts into a new exciting product
- You can be testing the recipes individually
Eg. one week you make a cookie and the next week you make a brownie and then the third week you combine them

Design ideas

Draw up 3 images of potential frankendesserts

1. Sketch what they will look like
2. Think about how they would be served (packaging)
3. Use annotations to show the two recipes used to make the dessert (ie. cookie and brownie)
4. Use colour to show final product design

Finishing off Mini Pavlova Posters

What to include on your poster:

- A title
- A drawn image
- Main ingredients
- Function of each ingredient ie.egg whites trap air when whisked....
- Label your image
- Put in a fun fact!
